# Lynda works hard for Stratford upon Avon all year round - not just at election time!

I am strongly focused on our local needs. By working with residents, I have identified what concerns people most from dog mess and anti-social behaviour to serious crime.

My vision is to create a County of ambition; strong economically – a place that you want to build a business, work and give your family the best start in life - and to grow old with confidence. And crucially I will be the determined voice banging the drum to resolve the traffic on Birmingham Road!

Finally, all decisions and issues that impact on us all are automatically routed to the County Councillor. In our Town we have no Conservative County councillor representation, therefore Stratford has limited influence and limited power. No influence and no power means the things we want in Stratford Town will probably not get priority. We need a Conservative voice in County Hall!

So, not only do we need Conservative councillors to run an effective administration we also need Conservatives from Stratford in the County to ensure we, as a town, have more influence, more power and more capability to get the things we want actually done.

**This by election won't change who runs the Country or Brexit; it is only about who represents YOU locally. I have worked hard for Stratford over many years and will continue you to do so whatever the result of this election.**

## OUR TOWN NEEDS A STRONG VOICE LIKE LYNDA'S FIGHTING FOR STRATFORD AT COUNTY HALL

## MAKING OUR TOWN CLEANER AND GREENER

## WHAT HAS YOUR CONSERVATIVE COUNCIL DONE FOR YOU

Our area deserves to look its best, that's why Conservatives have always made recycling centres free for residents to use. By voting Conservative you are voting for your recycling centres to be kept free, so we can all continue to make our area look as good as it should.

We all deserve to feel safe, not just in our community but also online. Conservatives are working with crime agencies and the Police and Crime Commissioner to make sure we tackle crime and disorder and protect the most vulnerable.

We are investing in more social workers to support children and their families and investing in more extra care housing to allow vulnerable adults, the elderly and those with learning difficulties to be supported.

Small businesses continue to thrive and large businesses have rightly chosen Warwickshire as the place to be. By making funds available to businesses and by encouraging super-fast broadband, it's now even easier to do business in our area.

Every child deserves the best start in life and in Warwickshire we have more children attending Good or Outstanding schools than ever before. Conservatives have invested in Early Years provision, helping to support families.
